

END MEDICAL DEBT

Curing America's \$1 Trillion Medical Debt Crisis

Jerry Ashton • Robert Goff • Craig Antico

Three industry insiders in healthcare, credit and debt collections reveal the causes of our broken healthcare system. They explore all of the major proposed cures for unpayable medical debt by both individuals and our nation as a whole.

The authors founded **RIP Medical Debt**, the national charity that's forgiven more than \$1 Billion in unpaid medical debt.

All author royalties donated to RIP.

Each book sold forgives about \$500 in medical debt

"Jerry Ashton, Robert Goff and Craig Antico put their lifetimes of experience into *End Medical Debt* to spread the word that medical debt is a personal and national crisis. More so, they are offering answers that are gaining national attention."

— **Kevin A. Cahill**, New York State Assemblyman; Chair, Assembly Committee on Insurance; Member, Assembly Committee on Health

"*End Medical Debt* explains why only Americans risk medical treatment being financially inaccessible, or that a family will be made destitute from a serious injury or disease."

— **Nancy A. Niparko, M.D.**, Attending Neurologist, Children's Hospital Los Angeles

"*End Medical Debt* confronts an important, sad truth: No one asks to be sick. It's hard enough being poor; it's hard enough being sick. But being poor and sick becomes a death sentence for some, a life sentence of indentured servitude for others."

— **Alan Grayson**, Former U.S. Congressman (D-FL)

"*End Medical Debt* is a valuable resource that should be read by every American citizen to make our health care system the best it can be in the world."

— **Midwest Book Review**
